

## **BC Pension Corporation appoints Brett Emmerton as vice president, Information and Technology Services and Chief Information Officer**

Victoria, BC – May 19, 2020 – BC Pension Corporation is pleased to announce the appointment of Brett Emmerton as vice president of Information and Technology Services and Chief Information Officer. Brett has over twenty years of international technology experience, and has worked in multiple industries inclusive of public sector, education, research, telecom, and technology.

Brett is a strong people leader with a depth of experience leading large-scale cloud products and services both domestically and internationally. He brings an expertise in program management, compliance and security and specializations in innovation, digital transformation, cybersecurity and vendor management to the corporation.

In this role, Brett will advance the organization's ongoing transformation to a modern service organization through digital technology and advance our business goals to strengthen our information security, information management and investments in technology.

### **About BC Pension Corporation**

BC Pension Corporation is one of the largest pension services providers in Canada and the largest in British Columbia. The corporation supports five pension plans with a total of 589,800 members.

In April 2012, Pension Corporation embarked on a comprehensive nine-year strategic plan. The plan, *From 12 to 21: Our Way Forward*, is an ambitious program of business transformation that supports high service levels and cost-effective delivery through better use of technology, improved business processes and continued attention to staff training and development.
